As a leader in technology, we are passionate about

creating the very best software solutions

Our 30-year history of creating innovations help clients run their business more effectively, including:

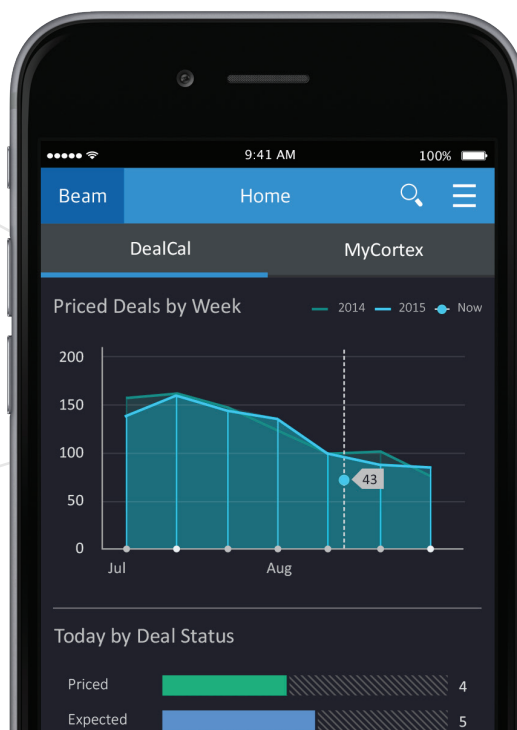

4 |

- The only truly global deal execution network, trusted to handle the biggest transactions on record in every major financial center
- Corporate access, analyst marketing, and deal order entry solutions for clients' sales, trading, and research operations
- The most reliable and comprehensive content on debt and equity offerings, loans, and M&A transactions
- The industry-standard Dealogic proprietary fee model, now used by more than 40 global banks and the top-ranked analysts covering those banks
- Predictive analytics to help clients originate and enrich their strategic decision-making

Our next wave of innovations include:

A whole new mobile suite of products that provide personalized, real-time content to help clients manage their business on the road

A fully integrated and seamless connection between buy-side and sell-side firms---the first platform to provide a synchronized view of all services delivered
