

Dealogic Connect – Ensuring leading institutions connect electronically to a global bank network

When it comes to the most trusted and reliable platform for corporate access and compliance solutions, including MIFID II and MAR, investment managers know to call Dealogic.

With Dealogic, institutions get electronic real-time access for resource evaluation and IOIs. Dealogic’s 30-year history of partnering with hundreds of banks ensures the broadest access to data. And unlike other providers, the data is cleaned and customized, meaning investment firms pay for only what they value. With Dealogic Connect the buy-side can also save time and reduce risk with electronic IOIs.

If you want to:

 <p>Maximize opportunities with an aggregated view of all corporate access data</p>	 <p>Streamline corporate access by filtering events according to your requirements</p>	 <p>Easily analyze resource consumption, improving your broker relationships</p>
 <p>Decrease risk and simplify IOI entries via electronic submissions</p>	 <p>Value resources received from banks efficiently and according to MiFID II rules</p>	 <p>Confidently use resource data from a partner who understands cleaning and customizing it to your view</p>

Dealogic Connect is the answer.

Trusted Platform

Dealogic Connect facilitates reconciliation and helps with regulatory compliance. We have the most banks using our products, whether for corporate access or deals.

In fact, the integrated Dealogic platform has helped execute the biggest transactions on record in every major financial center in the last 30 years. With the only true global network for primary equity capital markets, we connect the buy-side and sellside like no one else can.
